co.

- **Papers Factory**, EL-Obour City

DESCRIPTION OF SOME PROJECTS

ADMINISTRATION BUILDING OF BOLD ROUTES CO.

- Bold Routes is a prestigious brokerage firm, founded by industry experts, dedicated to delivering unparalleled value to our esteemed clientele.
- BOLD ROUTES's administrative building, with an area of 37,000 square meters, is located in the Fifth Settlement. Vision was honored to begin working on the shop drawings for the all electromechanical systems in the project, as well as working on the coordination drawings with the architectural drawings of the building.

ORIENTAL WEAVERS CO. CARPET SHOWROOMS

- Given the development that Oriental Weavers Carpets Company aims to achieve by establishing sophisticated and smart carpet showrooms,
- we have collaborated with them to develop the moderated engineering designs for the MEP systems for these showrooms. We have already implemented these projects for showrooms located in:
 1. Park Mall – Fifth Settlement.
 2. Madinaty
 3. AXIS Mall.
 4. Semoha.
 5. We are currently working on Mivida.

HIGHER TECHNOLOGICAL INSTITUTE (HTI)

- The Higher Technological Institute is one of the oldest educational institutions in Egypt, built on an area of approximately 245,000 square meters at 10th of Ramadan.
- This large area of the institute, which contains approximately 15 educational buildings for the departments of the Faculty of Engineering and the Faculty of Business Administration, was not able to keep pace with the developments in fire safety systems.
- Therefore, the objective of the contract was to design of firefighting and fire alarm, ventilation and smoke extraction systems in accordance with international fire safety codes, such as NFPA, FM-GLOBAL and ASHRAE.
